

FITTING INSTRUCTIONS

Honda XRV750 – Rear Rack

These instructions apply to RD07 & RD07A models

Contents

1 x Rear Rack

6 x M6 Fixings

1. Carefully remove existing 6 bolts from the original black plastic rear rack without dropping the retaining plates from underneath the rack.
2. The Rugged Roads Rear Rack can be mounted on top of the original black plastic rack or directly onto the rear grab rail frame.
3. Attach the Rugged Roads Rear Rack using the supplied fixings with the original retaining plates
